Product Description

Flextech 300-E has excellent weathering characteristics, good chemical resistance, and due to its outstanding flexibility, it's good for fan inlets and outlets where there is severe vibration. Available in belts or molded to "u" shapes.

300-E 1/4" glass reinforced EPDM

Elastomeric Compound:	EPDM
Temperature:	-60 °F to 300 °F (350 °F Excursion)
Media:	Hot Air, Moderate Flue Gas Acids
Abrasion Resistance:	Good to Excellent
Durometer:	65

Tensile:	1800 PSI
Reinforcing Fabric:	32 oz. Fiberglass
Weave Style:	Plain
Warp Strength:	300 Lbs.
Fill Strength:	300 Lbs.
Weathering:	Outstanding
Flexibility:	Excellent
